I N C O R P O R A T E D

Refreshing the Tabletop™

WITHIN THE WORLD OF CERAMICS, THE TERM “CHINA” DESCRIBES GENUINE CHINESE PORCELAIN. TO CAPTURE THE TRUE TRADITION OF CERAMICS, WE PARTNERED WITH OUR FACTORIES TO DEVELOP AND PRODUCE THE AUTHENTIC CHINESE CERAMICS WE PROVIDE TODAY.

OUR TABLEWARE IS CRAFTED USING A BLEND OF TRADITIONAL METHODS AND MODERN TECHNOLOGY, TO PRODUCE A WARE KNOWN BOTH FOR ITS EXCEPTIONAL QUALITY AND CONSISTENCY.

Refreshing the Tabletop™

ABOUT THE COMPANY

International Tableware, Inc. (ITI) is part of the Marck Group of Companies founded in 1986 by Gary Marck. Marck & Associates, the original company, has become the leading supplier to the promotional product and decorating industry with a full range of ceramic, glass, plastic and stainless steel drinkware items.

In May 2004 we entered into a joint venture with our primary ceramic and porcelain suppliers in China. The Shandong Zibo Niceton-Marck Huaguang Ceramic factory (NMH) is our lead joint venture and is China's largest manufacturer of premium quality ceramic products including plates, mugs, bowls and accessory tabletop items.

That same year, ITI was formed with the goal of *Refreshing The Tabletop®* by becoming a leading supplier to the foodservice and retail markets. Our principal products are dinnerware produced at our joint venture factories and complimented

with a collection of glassware, flatware and metal accessories. We have become leaders in the design, production and marketing of tabletop products for the foodservice and consumer channels.

Today, we are a global company manufacturing and sourcing products worldwide from factories located in the United States, China, Taiwan, Thailand, India, France and Colombia, South America. Our products are distributed around the world.

Our corporate headquarters and distribution center is strategically located in Toledo, Ohio. This is an expansive facility with over 400,000 sq. ft. of space that allows us to maintain sizable inventories to service our customers' needs.

International Tableware, Inc. has been successful because we listen to our customers and are committed to providing innovative designs, high quality products, superior service and competitive pricing. Today, ITI is a leading member of The Marck Group of Companies and welcomes the opportunity to be your partner in *Refreshing The Tabletop®*.

Refreshing the Tabletop®

From the trendy eatery, the hotel, the casino, and even to your favorite breakfast spot -- **ITI is there**. We offer a highly versatile, value driven line of tabletop solutions. Customers choose us more and more because we provide solutions.

One Stop Solution

Along with our strategic partnerships in dinnerware, we also offer a complete tabletop portfolio, including flatware, glassware, and buffetware.

Fully Vitrified

All ITI porcelain is high-temperature fired in our factories to ensure the durability you need. We stand behind every piece we sell.

Oven Proof

All ITI stoneware and porcelain is oven proof to 350°F. All of our bakeware is designed to withstand extended baking times at a maximum of 450°F.

Dishwasher Safe

All ITI stoneware and porcelain is manufactured to withstand the rigors of repeated commercial dish machines.

Microwave Safe

All ITI stoneware and porcelain is microwave safe (*exception = Florentine™ gold rim pattern*).

Lead Free

All ITI product is lead free.

Fresh Ideas

Your tabletop makes a statement. We are constantly adding new products to offer our customers fresh serving ideas.

Versatile

Mix and match our pieces to create your perfect look. Our catalog is coded by body color so you can combine different shapes and sizes.

Value

With ITI, you never have to sacrifice quality for value.

BONE CHINA

9 - 14

Holding true to the origin of Bone China, the mixture of premium clays and bone ash make for a highly elegant tableware collection. This ware contains a translucent body known for its thin profile, whiteness, and durability. Its mechanical strength generates a tremendous chip resistance, making Bone China a desirable tableware material for deluxe restaurants around the world.

FLATWARE GUIDE

— SPOONS | FORKS | KNIVES —

FLATWARE GUIDE		
Teaspoon		<ul style="list-style-type: none"> • Part of most traditional place settings • Wide variety of uses; coffee, tea, desserts, cereal, & soup • What most people envision when they think of a spoon
Dessert Spoon		<ul style="list-style-type: none"> • Larger than a teaspoon • Has a wide, deep, oval-shaped bowl
Tablespoon		<ul style="list-style-type: none"> • Resembles a traditional teaspoon in shape, but is much larger
Serving Spoon		<ul style="list-style-type: none"> • Mainly used as a serving utensil for bowls placed in the middle of the table
Bouillon Spoon		<ul style="list-style-type: none"> • Type of soup spoon • Has a round bowl
Demi-Tasse Spoon		<ul style="list-style-type: none"> • Similar in shape to a standard teaspoon, but generally has a longer handle & a slightly smaller bowl • Designed to stir small coffee drinks
Iced Tea Spoon		<ul style="list-style-type: none"> • Generally has a long, thin handle & a small, oval-shaped bowl • Great for stirring tall drinks, milkshakes, and root beer floats
European Dinner Fork		<ul style="list-style-type: none"> • Larger and heavier than a traditional dinner fork • Usually used during formal occasions & can be found in many higher-end restaurants • Used for plates over 10 1/2"
Dinner Fork		<ul style="list-style-type: none"> • All-purpose dinner fork, part of traditional place settings
Salad Fork		<ul style="list-style-type: none"> • Smaller than a traditional dinner fork • May have notched tines • Most often used for eating salads or smaller items such as sliced fruit
3-Tine Dinner Fork		<ul style="list-style-type: none"> • Dinner fork traditionally used on the coast • Most often used for eating seafood
Cocktail / Oyster Fork		<ul style="list-style-type: none"> • Suitable for small appetizers such as cheese cubes, olives, & oysters
Butter Spreader		<ul style="list-style-type: none"> • Typically has a dull edge with a rounded point • Suitable for spreading jam or butter onto soft foods like rolls, muffins, or toast
Dinner Knife		<ul style="list-style-type: none"> • Larger than a butter knife • Moderate serration for cutting prepared foods
Steak Knife		<ul style="list-style-type: none"> • Sharper than a dinner knife • Serration is used for food preparation and cutting

INDEX

126 - 134

Quality is manufactured into our products through design, superior raw materials and optimum production control. We are confident that our ware will live up to your expectations, however, please see our Care & Handling Tips so our products can be handled correctly to perform efficiently and last longer. For more tableware information, refer to our Estimating Needs and Color Key.

Refreshing the Tabletop®

CARE & HANDLING TIPS

CERAMIC DINNERWARE

1. Breakage or Chipping

Improper handling has always been the main reason for breakage or chipping. To minimize this, please follow these rules:

- Do not overload bus boxes and dish racks.
- Do not use metal utensils to scrape food off dishes.
- Use the correct warewashing rack, avoid metal.
- Do not pile heavy items onto lighter ones.
- Do not stack plates too high.
- Avoid nesting cups.
- Avoid high water pressure when washing dishes.
- Make sure the warewashing machine has rubber guards.
- Wash “prep area” should have protective matting on floor.

2. Scratches and Metal Marking

Scratches and metal markings can be the result of many causes. To avoid this, please observe the following:

- Avoid sliding plates on steel counters.
- Do not scour dinnerware with metal pads, steel wool, or abrasive cleansers.
- Do not allow food to dry on plates, as cleaning off the stuck food may cause scratch marks. Dinnerware should be placed in a soapy water solution upon removal from the table.
- Avoid overworking your china due to inadequate inventory levels.

3. Stains and discoloration

Staining could be the result of a number of reasons:

- Make sure that your dinnerware is fully vitrified. All ITI dinnerware is vitrified.
- Improper cleaning procedures where food is allowed to remain unwashed after bussing.
- Pre-soaking in water over 160 degrees.
- Improper detergent concentration.
- Hard water or high iron content.
- Lime content in old equipment.
- Eroded spray nozzles

GLASSWARE

Glassware can be damaged in more than one way:

1. Thermal Shock

When glassware is subjected to a sudden temperature change, a thermal shock occurs. Rapid change in temperature, either hot or cold, can cause enough stress to result in breakage from thermal shock. Glassware should be returned to room temperature before it is put into service.

2. Mechanical shock

Breakage or chipping due to mechanical shock is usually the result of sharp contact with another solid object such as flatware, another glass, or dinnerware. Sometimes mechanical shock could create an invisible crack in the glass thus rendering it weak. This glass will be more susceptible to breakage when subjected to another mechanical or thermal shock. To avoid this, never place flatware into a glass or nest glasses together unless they are made for stacking.

FLATWARE

Flatware in general can discolor or show signs of rusting and pitting if not handled properly.

1. Corrosion

The main reason for corrosion is the impact of chlorides present in food that dissolves and attacks the stainless steel, permanently damaging the surface of flatware.

2. Corrosion can also result from:

- Inadequate washing and cleaning procedures and methods.
- Flatware left soiled overnight.
- Use of low-temp warewashing machines.
- Improper compound used for cleaning.
- Inadequate presoak solutions.
- Use of chlorine or long presoak times.
- Extended exposure to moisture.
- Flatware should be washed in an upright position.

3. Tarnishing

Stainless steel flatware usually gets build-up of foreign material, such as food soils or hard water deposits which cause black, grey discoloration. It is important for customers to see and use clean looking flatware. To ensure this look, flatware must be subjected to a detarnishing schedule.

ESTIMATING NEEDS

ESTIMATING DINNERWARE NEEDS

Please use this table for your specific set up. To figure your exact needs (i.e. dozen for your initial order quantity), multiply the number of seats in your restaurant by the ordering factor, then divide by 12. Please refer to the factor that relates to your type of dining set up.

	Fine Dining	Casual	Diners
Bouillon	1.5	-	-
Bowls	1	-	-
Cup	3.5	3	2.5
Fruit	3.5	3	2.5
Grapefruit	1.5	1.5	2.5
B & B Plate	3	2.5	-
S/D Plate	2.5	2.5	2.5
Platter	2	1.5	-
Saucer	2	1.5	2.5
Serving Items	0.5	-	-

ESTIMATING FLATWARE NEEDS

Please use this table for your specific set up. To figure your exact needs (i.e. dozen for your initial order quantity), multiply the number of seats in your restaurant by the ordering factor, then divide by 12. Please refer to the factor that relates to your type of dining set up.

	Fine Dining	Casual	Diners

WARRANTY

ITI Limited 3 Year No-Chip Warranty

International Tableware Incorporated (ITI) warrants ITI branded dinnerware against edge chipping for three years from the date of purchase. ITI will replace or provide equivalent substitutes on a one-for-one basis at no charge for any item returned and found to be defective.

This warranty applies only to items that have chipped under normal usage. ITI reserves the right to determine normal usage. This warranty does not cover breakage of any kind. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

Warranty claims must be submitted in writing to:

I **corporated**
rtment

All claims must be accompanied by the item(s) to be replaced and a copy of the original authorized invoice for the item(s). The invoice must be dated within three years of the claim. A written response or replacement authorization will be sent to the claimant. Return freight is the responsibility of the claimant. Replacements will be shipped freight prepaid.
